MPD405 Lever Roll Paper Dispenser

HANDLE INSTALLATION INSTRUCTIONS

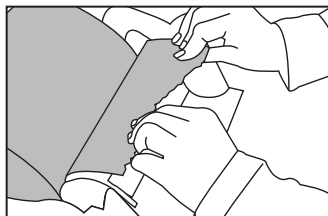

1. Remove key from the back of dispenser.
2. Remove sticker from cover and open dispenser.
3. Remove handle from inside of dispenser.
4. While the cover is open, snap handle onto small piece on right side of dispenser. Push in until you hear the handle snap into place.

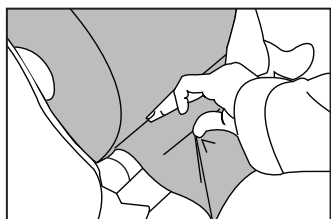

PAPER LOADING

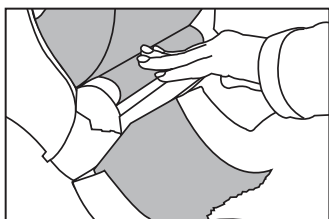

Step 1 Open cover. Insert roll towel.

Step 2 Pull down and drape so that paper is hanging off the back of the roll.

Step 3 Pinch paper by rolling between two rollers.

Step 4 Activate lever to feed paper through rollers. Close cover.

MOUNTING INSTRUCTIONS

(Dispenser must be mounted level)

The user is responsible for the proper installation and use of this dispenser.

Note: Hardware may not be included with your product. If hardware is factory supplied, refer to mounting instructions located in hardware pack.

Equipment needed:

Measuring tape, level, screwdriver, eye protection, pencil, drill and drill bit suitable for appropriate wall mounting hardware. Assemble appropriate fasteners (screws, bolts, anchors, washers, etc.) for mounting.

1. Determine position on wall/surface with unit open. Through the holes at the back of the unit, use pencil to mark the spots where the drilling will be necessary. Be sure unit is level before marking holes. **WARNING:** Proper function of this dispenser requires level mounting. Try to mark spots as close as possible to the outer edges. Mount upper center hole first.
2. Drill the marked spots on the wall/surface with appropriate sized drill bit suitable for the wall material and fasteners used.
3. Complete the installation. Be sure to use fasteners (and anchors) in all mounting holes that are appropriate for the wall/surface to which the dispenser will be mounted. The installation should be done with a flat washer between the head of the fastener and the inside back of the dispenser.
